Professional Summary

B.Tech Computer Science undergraduate seeking a Software Development Internship, with hands-on experience building secure full-stack applications using Java, React, Node.js, and MongoDB. Skilled in end-to-end encryption, RESTful API design, and secure coding practices, with proven experience leading a collaborative student development team. Looking to apply a security-conscious, detail-oriented engineering approach to real-world software development work.

Technical Skills

- **Languages:** Python, Java, JavaScript (ES6+), C, C++, HTML5, CSS3
- **Frameworks & Tools:** React.js, Node.js, Express.js, MongoDB, RESTful APIs, Socket.io, Git
- **Security:** End-to-End Encryption (E2EE), SSL/TLS, Secure Coding Practices, IoT Security
- **Core Competencies:** Problem Solving, Analytical Thinking, Team Leadership, Adaptability

Projects

Personal Website (Portfolio) 2026 – *Live*

Frontend: HTML5, CSS, JavaScript

- **Purpose:** A personal portfolio website designed for Hans Soni, a Computer Science undergraduate focused on full-stack development and cybersecurity.
- **Tech Stack:** Built using core web technologies including HTML, custom CSS for styling, and vanilla JavaScript for logic and interactivity.
- **Design & UI:** Features modern web aesthetics such as dynamic floating shapes, smooth micro-animations, a custom interactive cursor, and a seamless dark/light theme toggle.
- **Content:** Acts as a comprehensive digital resume, showcasing the developer's technical skills, educational background, past projects, and direct contact information.

- **Key Focus:** Highlights the developer's proficiency in languages and frameworks like Java, React, and Node.js, while emphasizing a strong foundation in secure, end-to-end encrypted software engineering practices.

Secure Real-Time Chat Application 2026 – Ongoing
Java, Socket.io, MongoDB, JavaScript, React

- **Full-Stack Monorepo Architecture:** The project is structured as a single repository containing both a Node.js backend and a React frontend, managed together using concurrently to run both development servers simultaneously.
- **Real-Time Communication:** It leverages Socket.io on both the server and client (socket.io-client), indicating it supports live, bidirectional real-time messaging between users.
- **Robust Backend API:** The backend is built with Express and MongoDB (via Mongoose) and focuses heavily on security and authentication. It utilizes JWT and bcryptjs for secure user authentication, alongside security middlewares like helmet, xss-clean, and express-rate-limit to protect the API.
- **Modern React Frontend:** The client side is a fast, modern web app built with React 19 and Vite. It uses Zustand for lightweight global state management and React Router for navigation.
- **UI & Third-Party Integrations:** The user interface is styled seamlessly using Tailwind CSS combined with DaisyUI components and lucide-react icons. Additionally, the backend integrates with Cloudinary (likely for user avatars and image sharing) and Resend (for sending emails, such as password resets or verifications).

Adaptive Reading Aid for Dyslexia (Team Project) 2026
JavaScript ES6, Chrome Extension API, Web Speech API

- Led a student project team to build a Chrome extension that improves web page readability for users with dyslexia
- Engineered text-to-speech integration and customizable visual themes using real-time DOM manipulation
- Kept the extension lightweight and secure, ensuring smooth performance across browsing sessions

Certifications

- Computer Networks (CN) & IoT — NPTEL, Government of India (IIT/NIT Certified)
- Spring Boot REST API Development — Professional Certification

- Introduction to Cybersecurity — [Cisco](#)
- OPSWAT Introduction to Critical Infrastructure Protection (ICIP) — [OPSWAT](#)
- Enterprise Design Thinking Practitioner — [IBM](#)
- Garage Foundation — [IBM](#)

Education

Bachelor of Technology (B.Tech), Computer Science & Engineering Expected 2027
Parul Institute of Engineering & Technology (PIET), Parul University — Vadodara, Gujarat
CGPA: 6.11

Senior Secondary Education (Class XII)

Percentage: 62%

Secondary Education (Class X)

Percentage: 66.5%
